Company Description

Penscale Technology Sdn Bhd is a wholly owned Malaysian Incorporated company involved in the production, sales and marketing, installation, service and support of weighing, hospital equipments and software for domestic and regional markets. The company participates actively in government and private sector projects.

Penscale Technology Sdn Bhd was incorporated on May, 2003 and operates from its head offices at AS-00-07, Goodyear Court 10, 47610 UEP Subang Jaya, Selangor Darul Ehsan, MALAYSIA and No. 30 Argyll Road, 10050 Penang, MALAYSIA, Penscale's staff force comprises various disciplines from business administration to design, engineering, production, service and support.

Penscale Technology Sdn Bhd is a leading corporation in Malaysia involving in the manufacturing, sales and marketing, installation, service and support of weighing, hospital equipments and software for the laboratory, education, and industrial and specialty markets both domestically and regionally. With our fleet of experienced and skilled technical, project, sales and marketing personnel, we are definitely the best choice and source for all weighing and equipment needs.

Actively involved in the supply, installation, service and support of these equipments and project management for our main customers including namely, Radicare (M) Malaysia and Faber Medi-Serve Sdn. Bhd. (FMS) who are both the concessionaire appointed by the Malaysian Government to operate and manage support services to the Ministry of Health hospitals throughout Peninsular Malaysia and the whole of East Malaysia. Other customers range from corporations in the oil and gas, hospitality to food and beverage industries including names like the Nikko Hotels Malaysia, Evergreen Laurel Hotels, Matsushita Electric, McDonalds Malaysia, Carrefour Hypermarkets etc.

We are firmly focused on continuing the long-standing record of success and providing the best in delivering quality products and services that meet our customer’s needs and supporting those products with responsive, reliable customer service. With three (3) main operation offices in Kuala Lumpur (Central Region), Penang (Northern Region) and Johor Bahru (Southern Region), and more than 12 applicators nationwide, including East Malaysia, we aim to be wherever and whenever our customers need us, because we think they definitely deserve the best of experience in quality from us, be it product or services provided.

Mission

Our mission is to offer strategic independence to our partners worldwide, as a visible and viable broad range weighing and project solutions provider.

Strategies

Manufacturing: To be recognized as a world class manufacturer in the three major parameters of our activity: Quality, Service and Cost.

Globalization: To have an integrated presence (Development, Manufacturing and Marketing) in each major macro economic system of the world.

Innovation: To sustain a high rate of innovation in products, processes and manufacturing capabilities, as the main fuel for our growth, supported by R&D expenditures higher and more effective than the industry average. Our innovation process will be driven by the market through our strategic alliances with key partners. We will encourage innovation in all ways, including management methods and we will welcome new and challenging ideas.

Strategic Alliances: To form relationships with key world customers, assuring them strategic access to our technology as well as to our manufacturing capabilities, and assuring us the vital access to their market and system know-how, legally share resources and know-how with suppliers, other manufacturers, universities and technical institutions when there is a mutual advantage to do so.
